

I am writing to thank you for my recent visit with Dr Drossman with the Drossman Center, The Rome Foundation, and UNC Gastroenterology. This was my 2nd visit with Dr Drossman over the past two years. I continue to benefit from his guidance in teaching in management of patients with functional GI disorders. His kindness, patience, and dedication to the education of gastroenterologists is truly inspiring. My confidence in managing these conditions, and truly making a valuable, meaningful impact in the lives of patients with these disorders has been influenced beyond description. Additionally, I have been able to bring what I have learned back to my own institution (University of Virginia), where my colleagues and GI fellows continue to benefit from his teaching. Thank you all again for this amazing opportunity. I truly believe that if all prominent GI faculty demonstrated a similar dedication to education and training outside their own institution the entire GI community would benefit greatly.

Thank you,

Jeanetta W Frye, MD

Assistant Professor of Medicine

University of Virginia Gastroenterology Associate Program Director, UVA GI Fellowship Director, UVA GI Motility Lab Clinical Development Coach, UVA SOM
